Sparklings of the World

Happy Birthday! Congratulations! Bonne Appetite!

To celebrate their steps into the unknown world, pagan explorers anointed themselves with a blessed liquid – blood, booze, or brandy. Recognizing that you could christen a ship without a priest, the Royal Courts of Europe chose the ‘holy water’ of champagne as it visually overflowed with abundance, joy, and grandeur.

From religious ritual to today, sparkling wines continue to mark new beginnings for all. L’chaim!

Sauvignon Blanc

Hidden amongst the sprawling grapevines of 16th century France, Sauvignon Blanc grapes were named after the 'Sauvage', or 'wild' grapevines with similar leaf shapes. Outstanding examples from the Loire were characterized by aromatic depth, citrus-forward freshness, and crisp acidity.

Chardonnay

The Helen of Troy of white wines - plenty have tried but none yet own the origins of Chardonnay. Top contenders include the 17th century village of Chardonnay in Saône-et-Loire, Cistercian monks in northern Burgundy, and Chardenay; a village in south Burgundy where Thistle (also known as Cardonacum) grows.

Chenin Blanc

Chenin Blanc is responsible for some of the longest-lived white wines in the world. Largely from its spiritual home in the Loire Valley of France, it has become a serious player in the new world, namely South Africa and Australia.

Riesling

Rieslings are deeply rooted in Bavarian and Germanic origins, with writings of the grape dating back to 1435. Growers note that vines in the Americas and Australia grow thicker skins and branches (acclimatizing to the harsher climates), while those in Europe celebrate the ability to make a myriad of styles; from dry to lusciously sweet.

Pinot Noir

Perhaps the world's most difficult grape to grow, where only the most passionate of winemakers dare to try their hand. Pinot noir is often referred to as the "heartbreak grape" because of its difficult growing conditions and low yields but is also highly prized by winemakers for its unique flavor and aroma profile. With great quality and scarcity, it is no surprise that Pinot Noirs are so highly regarded today.

Cabernet Sauvignon

The world's most planted grape variety is Cabernet Sauvignon. Grapes of this variety are small, thick-skinned and known for their structure and aging potential. Renowned for its vast flavour potential, deep colour and affinity with French oak barrels, one can see why people across the wine world are drawn to it.

Grenache

The underdog variety. Though responsible for some of the most delicious and expensive wines in the world, this varietal is often forgotten in our daily vocabulary. From exalted wines like Châteauneuf-du-Pape to cult Australian wines, this grape is a showstopper.

Syrah/ Shiraz

Myths & Legends tell romantic stories of the Syrah grape coming from exotic regions of Sicily, Syria and Iran. However, DNA profiling has proven that this variety is a crossing of two French varieties in the 18th Century. Today, this wild and versatile grape is celebrated in a wide array of styles
